### **DETAILED ACTION**

1. Claims 1-114 are pending in this application.

### ***Election/Restrictions***

2. Claims 1, 42, 63, 65, 73, 75, 84, 87 and 99 are generic to a plurality of disclosed patentably distinct species comprising the compounds of the working examples. Related structures and art-recognized equivalents will be grouped together for examination purposes. In the absence of significant prior art, remaining structures will also be grouped therewith.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

A telephone call was made to Mr. David Weitz on Sept. 19, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1624

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
